About Us.

Introduction

Alphacia limited is a trusted supplier and distributor of laboratory reagents, chemicals, and equipment serving Tanzania's educational, industrial, medical and mining sectors. Headquartered in Dar es Salaam, our mission is to empower clients by providing not only high-quality products but also essential training on chemical safety and handling. Through our targeted entrepreneurial programs, we support businesses in maximizing the safe and effective use of chemicals, while fostering industry growth.

We take pride in our role as a reliable partner to institutions, manufacturing facilities, water treatment plants, medical facilities and the mining sector. Our team brings extensive expertise to ensure our products and services meet industry standards, from school laboratories to large-scale industrial applications. As we expand across Tanzania, our commitment remains steadfast: to deliver excellence, foster safety, and drive industry innovation.

Mission & Vision

MISSION

To become Tanzania's leading chemicals, equipments, water treatment supplier and consultancy, ensuring chemicals and equipments availability , high performance water treatment solutions and practical skills development.

VISION

To be the most trusted partner for water treatment, chemicals, equipments and reagents management in Africa, offering innovative solutions that support operational excellence and environmental responsibility

Our Philosophy.

At Alphacia Limited, we focus on quality, safety, and innovation. Our goal is to provide reliable chemical solutions while promoting sustainability. We are committed to integrity, excellence, and continuous improvement, ensuring that we meet the highest industry standards and contribute to Tanzania's industrial growth.

SERVICES

Industrial Chemicals

Citric acid, acetic acid, soda ash, caustic soda, etc

Laboratory Chemicals & Reagents

Acid and bases for analytical chemistry, oxidizing agents and reducing agents Solvents like acetone, Toluene, etc

Water Treatment Chemicals, Reagents and Consumables

Disinfectant and oxides, Antiscalants, Coagulants, pH Adjusters, Activated carbon, Corrosion & scale inhibitors, Resins, RO Membranes, Online Analyzers and Sensors etc.

Mining Chemicals

Sodium Cyanide, Activated Carbon, Borax etc

Chemical safety & Managements and Equipment Services & calibration

Equipment maintenance and after Sales services.

Market Research & Analysis

Tanzania's economic growth and industrialization increase demand for chemical supplies in different areas like manufacturing and processing industry, mining sector and Laboratory analysis . This expanding demand represents a significant market opportunity for Alphacia Limited.

CHEMICAL INDUSTRIES

Supporting industries with reliable products for efficient operations.

LABORATORY

Supplying labs with quality equipment and materials for research and testing.

MANUFACTURING INDUSTRIES

Including water treatment facilities and food manufacturing industries.

MINING SECTOR

Serving both large-scale and artisanal miners.

Competitive Advantage:

- Strategic focus on underserved markets.
- Training services that enhance customer capabilities and ensure safety compliance.

Unique Selling Proposition (USP):

- Affordable pricing and volume discounts.
- Bundled services (e.g., chemicals plus training).
- Focused support for niche sectors like small manufacturers and artisanal miners.
